TO MY CYCLE.

Dear other self, so silent, swift and sure,
My dumb companion of delightful days,
Mighty fairy fingers from thy orbit rays
Of steel strike music, as the gods of yore
From reed or shell. What melodies would pour
On my glad ears! What songs of woodland ways.

Of summer's wealth of corn or the sweet lays
Of April's budding green, while crumpled
Vestments, one living thing, flash like the light
Down the long tracks that stretch from sky to
slay!

Thou hast thy music too. What time the moon
Beats softly on broad roads, when, gathering
night,
We drink the keen edged air, or, darkling, by
Twist hedges, blackened by a mystic moon.
—Adriel Vere in London Spectator.

DID IT HURT YOU?

A Question That Is Often Out of Place and Unnecessary.

The old hymn in Sam Taylor's "Original Poems" beginning with "Who ran to help me when I fell?" ought to have a provisional clause added to it. The person who hastens to help a sufferer who has been shocked by a fall should not say a single word. Of course the benevolent bystander is brimful of questions: "Where are you hurt?" "Have you sprained your ankle?" and lastly the insane request to know whether you can fall down a flight of 20 steps or from a piazza 10 feet above ground and not be damaged any more than if you had thrown yourself on a down pillow only a foot away.

Of course you are hurt, and the nerve shock is so great that any sort of question, even if "they" still feel hot water, is an additional blow to the nervous system. You are suffering, perhaps, too much to speak, yet they pelt you with questions while every power of your body is endeavoring to regain self control. You ought not to answer. You would like to scream that "it hurts" a hundred times more for being summoned to speak and to diagnose yourself.

All instructions in the line of "First aid to the injured" should begin with, "Be perfectly silent when you run to lift or help a person who has been knocked down or who has fallen and is still partly dazed with the tremendous shock." Let it be for the sufferer to say, "Oh, my head!" or "Oh, my leg!" or back. He will indicate as soon as it is necessary the injured part, but meanwhile you are driving him nearly frantic by asking about it. These simple yet important directions do not seem to be impressed upon the average helpful mind.

Fact, of all things, is as necessary as a knowledge of a tourigist's map from a stick and a pocket handkerchief. For water, of course, is required for all bruises and sprains, but let it be brought without asking. This relief to the victim of an accident in having swift and noiseless help, without him or her—absolutely silent, yet knowing exactly what to do—is very great. Any one who "has been there" knows it all. Yet how quickly it is forgotten when we run to lift up somebody else and begin to pelt him with "Where did it hurt you?" "Are you hurt?"—Philadelphia Record.

Red Turtles in a Boiling Spring.

That portion of southern or lower California called Hell's Half Acre appears to be situated directly over a substratum of fire, which causes the mud and water to boil as if in a caldron. At one place on the Half Acre there are over 100 boiling springs and hot mud geysers on a plot of ground that is not of greater extent than a common city square. The chief spring in this queer collection of boiling and spouting jets of mud and water is called the Fountain of the Boiling Turtles on account of the curious habit of occasionally ejecting numbers of small red turtles. The temperature of this spring is 220 degrees, 14 degrees higher than the temperature required to boil water under ordinary atmospheric pressure. Notwithstanding the fact that the temperature is sufficient to boil meat perfectly within a few minutes, the small red turtles spoken of live and breed there just as the ordinary variety does in waters of common lakes, rivers and other streams. The spring is called the Fountain of Boiling Turtles because the queer, hard shelled creatures which inhabit it have the appearance of being cooked perfectly done.—St. Louis Republic.

Monkeys Have No Fleas.

It is curious that monkeys should be thought to be infected with what naturalists call the pulic irritans and what ordinary people know as the flea. As every zoologist is aware, monkeys have neither fleas nor any other parasite whatsoever; in which, of course, they differ vastly from man.

As a matter of fact, when monkeys begin to pick each other about in the friendly way we have all observed, they merely detach bits of hardened sebaceous matter which has been excreted by the glands, and the flea idea, is entirely fabulous.—Pearson's Weekly.

Stopped the How.

"What kind of cheese is this, waiter?" asked the late caller at the restaurant. "It's a switzer."

"What, you impudent rascal! I ask what kind of cheese it is, and you tell me it's a switzer. Why, I'll break every bone in your—"

And a prompt explanation from the proprietor at this point was all that prevented a fight.—Detroit Free Press.

MANLY VIGOR

ONCE MORE in harmony with the world, 2000 completely cured men are standing today, grateful for the greatest, grandest and most successful cure for sexual weakness and loss of vigor known to medical science. ERIE MEDICAL CO., BUFFALO, N. Y.

THE BARS OF HEALTH

once down, disease finds an easy entrance.

If there is a weak spot in the body, disease germs will find it. They will lodge right in that spot and unless they are driven out at once, will increase and multiply and grow into seriousness. Weakness is a predisposition to disease. Whether the weakness be local or general, it is dangerous. Good healthy strength all over the body is the best safeguard against disease. Debility of any kind is a direct invitation to serious sickness. The reason that Dr. Pierce's Golden Medical Discovery cures 99 per cent of all cases of consumption if taken in the early stages of the disease, is that it puts the whole body into a hearty, healthy condition. The poisonous tubercular matter is thrown off by the lungs, and the pure, rich blood coursing through them, quickly stops the inflammation, heals the broken membranes and makes the lungs perfectly strong and sound. Consumption is marked by wasting away of the bodily tissues and vice versa. A wasting of the flesh brings on consumption. Doctor Pierce's Golden Medical Discovery induces the accumulation of sound, hard, healthy flesh. It increases the appetite and the capacity of the digestive organs for the assimilation of food. It is a purifier, a tonic and a powerful curative remedy, all in one bottle. All who will send their addresses, and twenty-one cents in postage stamps, to cover wrapping, to World's Dispensary Medical Association, Buffalo, N. Y., will receive by mail a book of 1000 pages, which tells all about the "Golden Medical Discovery."

SILVER PARTY PLATFORM.

Adopted at Elko, Nevada, September 8, 1896.

The Silver party of Nevada, in State Convention assembled, does affirm its allegiance to those great essential principles of justice and liberty upon which our institutions are founded, viz: Freedom of speech; freedom of the press; freedom of conscience, the preservation of personal rights; the equality of all citizens before the law, and the faithful observance of constitutional limitations.

We pledge our earnest and active support to William J. Bryan for President, and to Arthur Sewall for Vice President of the United States.

We heartily endorse the platform of the National Silver party adopted at St. Louis, July 25th, 1896.

We declare the restoration of silver to the place accorded it as a money metal by the founders of the Government, to be the paramount issue.

We demand the remonetization of silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be full legal tender equally with gold for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the issuing of Government interest bearing bonds in time of peace, and we demand that the Government officials, the servants of the people, shall use the option given them by law to redeem all obligations in gold or silver coin.

We demand the abolition of National banks, and the issuance of all money direct by the Government.

We demand the collection of the indebtedness of the Pacific Railway Companies to the United States, as it matures, without extension of time or charge of terms or conditions.

We demand Government ownership of telegraph lines and railroads.

We demand the enforcement of the Interstate Commerce Act.

We demand legislation excluding foreign paupers, criminals, and contract labor.

We pledge the fostering care of the State to our public schools and the State University, of which we are justly proud, and favor such legislation as will increase their efficiency.

We cordially invite the co-operation of all true silver men of all parties in the ensuing election, and hereby pledge the electoral vote of Nevada to Thomas J. Watson, should it appear that the election for the Vice Presidency be between him and Garret A. Hobart, the gold trust nominee.

We denounce the hypocrisy and double-dealing of the Republican party of Nevada, which, on May 10, 1893, declared for free coinage at the ratio of 16 to 1, independent of any other nation, as the only means of restoring prosperity to the country, and on June 18, 1896, declared that the restoration of silver would create a panic and demoralize the business of the country.

We approve the bill passed at the last session of the United States Senate, now pending in the House of Representatives, relative to contempt in Federal courts, and providing for trials by jury in certain cases of contempt. We are in favor of arbitration of the differences between employers engaged in Inter-state commerce and their employees and recommend such legislation as is necessary to carry out this principle.

Recognizing the just claims of union soldiers, we heartily endorse the rule of the present Commissioner of Pensions that no man shall be arbitrarily dropped from the pension roll, and that the fact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment.

WATERWAYS AND RAILROADS.

The Federal Government should care for and improve the Mississippi River and other great waterways, and should own the great trunk lines of railway and improve and operate them so as to secure for the interior States easy and cheap transportation to tide water. When any waterway or trunk line railway is of sufficient importance to demand aid of the Government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

VOLUME OF MONEY.

The volume of money in circulation should be speedily increased and always be fully adequate for the requirements of business. It should be increased to an amount that will enable us to build our railroads, open our mines and develop our vast resources without dependence upon the money lenders of Europe.

PUBLIC OFFICE.

A public office is a public trust. No person or party should be trusted who has once violated that trust.

ELECTIVE FRANCHISE.

We denounce the purchase and sale of the elective franchise as destructive of our liberties, and favor the strict enforcement at all future elections of the law passed at the last session of the Legislature, known as the Purity of Elections law; and recommend that all candidates for the Legislature be required by their constituents to pledge themselves against a repeal of the law or any modification that will impair its efficiency.

UNITED STATES SENATORS.

We are in favor of an amendment to the Constitution of the United States, providing for the election of United States Senators by direct vote of the people of their respective States.

UNITED STATES SENATORS AND MEMBER OF CONGRESS.

The able and efficient services of Senator Stewart and Jones and Congressman Newlands in the Congress of the United States in behalf of all interests that promote the welfare of our people are worthy of the indorsement of every patriotic citizen of the State. And we are in favor of the election of Hon. John P. Jones for United States Senator.

Resolved, That the Silver Party was organized for the purpose of securing the remonetization of silver and that we are opposed to any effort to disorganize it until silver is remonetized.

FOR HOME INTERESTS.

Why should any resident of Nevada vote to perpetuate the single gold standard? Not one of those who are advocating the success of the party which declares against the free coinage of silver has answered that question, though it has been repeatedly asked in the present campaign. Everybody knows that the financial policy of the Government is reducing millions of people to beggary throughout the country. Numerous instances are cited in New York and the Middle States of persons who mortgaged their property some years ago for less than one-third of what it would sell for at the time, and are now homeless because when the mortgage matured the property would not sell for the amount of the indebtedness. Only the wealthy are benefited by the single gold standard, but they are compelling those who are indebted to them to make a pretense, if nothing more, of supporting McKinley by threatening to force them to pay their obligations if Bryan is elected.

There are people in Nevada, unfortunately, who are in the clutches of the gold trust, and probably a few of them will vote for McKinley under duress, but the large majority of the people will exercise the suffrage as freemen and vote for Bryan. It is generally conceded that the success of the silver cause would increase the value of property 25 per cent before New Year, it would give an impetus to the mining industry in this State and that would increase the value of agricultural lands and all other kinds of property. The opening of mines would give employment to tens of thousands. Labor and machinery would be in demand and Nevada would enter upon an era of prosperity unprecedented in its history.

But it will be observed that the men who prate about home rule in politics are opposed to home rule in financial affairs. With that inconsistency for which they are noted and with the same apparent disregard of good faith with which they repudiate pledges made to the public they declare that we must maintain the gold standard, which is lowering the masses of the people to the condition of European nations, until European nations give us permission to change our financial system.

No Nevada should vote to perpetuate the gold standard. It is a blight on the nation as well as the State. It has paralyzed our industries, forced thousands into bankruptcy and tens of thousands into prisons and poor houses. It is a system which the founders of the Government never contemplated would be sanctioned by the people of the United States, and which they provided against by making the dollar of 87 1/2 grains of silver the unit of money and a legal tender for all debts. Let the people of Nevada set the seal of their condemnation on this single standard system, which was fraudulently engrafted upon our laws, by voting next Tuesday for William Jennings Bryan, Congressman Newlands and members of the Legislature who will return John P. Jones to the United States Senate.

COUNTY COMMISSIONERS.

The County Commissioners are the financial managers of the public. They levy taxes and expend the revenue collected from the people. By extravagance and favoritism they may exact of the people more of their property in the way of taxation than would be necessary if there was open competition for all work of a public character. The laws very wisely limit the authority and power of county Commissioners, but there be Commissioners, nevertheless, who set on the principle that they have authority to do any and everything which the law does not prohibit them from doing and much that the law does prohibit. One of the things which the law expressly provides against is that the Commissioners shall not enter into any contract which in the aggregate amounts to \$500 or more without first advertising for bids. The law also provides that the contract shall be let to the lowest responsible bidder.

A correspondent directs attention to a specific violation of this law by the Board of Commissioners in entering into a contract with the Specialty Company for steel cases for the County Clerk's office. By the terms of the contract \$1,498 00 was allowed the company at a meeting of the Board of Commissioners last May for the metal boxes. The Auditor vetoed the bill in excess of \$500. The Commissioners passed the bill over the Auditor's veto. The Auditor feeling that it was his duty to abide by the law regardless of what the Commissioners did, refused to draw a warrant on the Treasurer for the amount.

The facts as stated are of record, and though the Specialty Company is a foreign corporation, it has, so far, taken no legal steps to collect the

balance of the amount due on the contract. The company sent a lawyer here last summer and he threatened to commence legal proceedings for the recovery of the amount due, but for reasons not made public the threat was not carried into execution.

It is stated that responsible persons were prepared to enter into an agreement with the Commissioners to put metal boxes in the Clerk's office for \$500. These persons say they would have made a profit of at least \$125 on the contract, but however that might be they would have given bonds for the faithful performance of the contract. Under such circumstances the people who are taxed to provide revenue for the support of the county were defrauded of the difference between \$360 and \$1,498 00 and possibly more, if proposals had been advertised for according to law.

That there is something connected with the contract that fears the light of day is apparent from the fact that the company hesitates to bring suit. Perhaps it is arranged in the event of the election of officials who understand addition, division and silence that the Specialty Company will get the amount without having the contract ventilated in court, but if the people are true to their own interests they will prevent the consummation of the scheme by electing men who are above suspicion and opposed to jobbery, men who, like H. H. Beck and George Frazer, are not opposed to public improvement, but will fight to a finish all attempts at public plunder.

SAN FRANCISCO SUB-TREASURY.

Reports of Gold Withdrawn Said to be Exaggerated.

WASHINGTON, October 27.—The statement telegraphed from San Francisco that the United States Sub-Treasury there had just pulled through a run which threatened to annihilate its gold holdings is stated by the Treasury officials to be greatly exaggerated. During August and a part of September the withdrawals reported to the Sub-Treasury in San Francisco were abnormally heavy, but at no time were the officials apprehensive of any serious results. Long before the withdrawals assumed any considerable proportions instructions had been given the Chicago Sub-Treasury officials to be ready to ship to San Francisco such quantities of gold as might be required, and later on or more shipments were made.

For the most part, however, the Assistant Treasurer at San Francisco managed the matter with little assistance from Washington, and as one official stated to-day, the "Hurry lasted but a short time and alarmed no one." There has been no unusual withdrawals in San Francisco for nearly a month.

THE WHEAT MARKET.

The Failure in India Will Cause Higher Prices.

LONDON, October 27.—On the Baltic this morning business in wheat was dull. The tendency was towards easier prices. The Evening Standard says that the tendency is for higher prices. "The failure in India," it says, "will divert California and Australian wheat from Europe to there. Only the tremendous effort of the United States to hurry wheat across the Atlantic in exchange for gold prevented a much greater increase in prices, and when the rush is past there will be another rise."

CHICAGO, October 27.—Wheat opened weak this morning at a decline of nearly a cent. Northwest receipts were very heavy. The traders looked for further liquidations. The Liverpool cables, too, were disappointing.

English Nobles Dead.

LONDON, October 27.—Lord Alexander Paget is dead. He was born in 1839 and was a brother of the Marquis of Anglessea.

The Dowager Duchess of Leeds is dead. She was formerly Miss Harriet Wendell Stuart.

TELEGRAPHIC NOTES.

John L. Sullivan, the great pugilist, has cancer on his right hand and may lose his arm.

A delegation of fifty-two ladies visited Canton yesterday and were addressed by Mr. McKinley.

Thousands of workmen gave Bryan a rousing reception at Dwight, Illinois, yesterday. He was introduced by Vice President Stevenson. Watson spoke to an audience at Lincoln, Georgia, and said he would remain in the race for Vice Presidency though the Populist electors in Georgia had withdrawn.

Charles Mussey, a Kansas City lawyer, has sworn out a warrant for Miss Alice Platt, a servant girl, charging her with poisoning his mother-in-law and his two children.

The steamship City of Pueblo which arrived at San Francisco yesterday from Seattle, was run into last Saturday night by an unknown British bark, and had her upper works crushed.

A brief prepared by the Venezuelan government on the British boundary has been forwarded to Washington and will be submitted to the United States Commission as soon as it is translated.

Speaker Reed arrived at Los Angeles yesterday and great preparations were made for his reception. A rain interfered with the proposed parade and outdoor speaking. The procession was a failure.

Dr. W. W. Palmer and his granddaughter were killed by a train on the Central railroad at Keansburg, New Jersey, yesterday. They were crossing the track in a carriage when the train struck the vehicle.

The engine on the north-bound pas-

senger train on the Houston and Texas Central road jumped the track. Engineer Clark was badly injured and Fireman Mathews killed. None of the passengers were injured.

At a McKinley meeting at Coal Creek, Tennessee, a negro named Block shot at another negro named Martin and fatally wounded him. One of the shots instantly killed Robert Laughlin, Justice of the Peace.

A man named James Taylor threatened to blow up the San Francisco post-office. He has an idea that the post-office people are holding mail that belongs to him and he writes them that they must not fool with him any longer.

Mrs. Jesse Winner and her two children were murdered at Richmond, Missouri, night before last. The woman's head was cut with an ax and the throats of the children cut. Bloodhounds were put on the track of the murderers.

The oration given by Bryan at Jacksonville, Illinois, was one of the greatest he ever received in a town of its size. There was a parade that would be creditable to a town three times the size of Jacksonville, and Bryan was wildly cheered.

Consul General Lee at Havana has given up his proposed visit to his home in Virginia. The determination to remain at his post is understood to be to refute the reports current that he was dissatisfied with his instructions and desired to be relieved.

P. M. Arthur, Chief of the Brotherhood of Locomotive Engineers, and F. P. Sargent of the Brotherhood of Locomotive Firemen, deny that they are in favor of silver. They signed a petition to Congress in favor of free coinage, but that was before they were hypnotized by Hanna.

"The Indian Troubles in Nevada" will be the subject of Professor Robert Levens' lecture before the University general assembly to-day at 11:45.

BORES.

MUDPUP—In Reno, Nevada, Oct. 26, 1896, to the wife of R. L. McInnes, a daughter.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

OF INTEREST TO TAXPAYERS.

Something About the Metal Box "Job."

EDITOR JOURNAL:—Perhaps it would be interesting to the taxpayers of Washoe county to know why the mandamus suit has not been brought against the Auditor for refusing to draw his warrant in favor of the Specialty Company for the steel cases recently put in the Clerk's office. The necessity of these filing cases was never questioned. In fact it seemed to be a necessity.

A majority of the board consumed this contract which aggregated \$1,300, and it was the majority who met on May 25th last and passed the claim. The Auditor vetoed the claim on the ground that the law governing such transactions had been violated. Said law provides that the Commissioners cannot enter into any contract which in the aggregate reaches \$500 or more without first advertising for bidders and also that said contract shall be let to the lowest responsible bidder. Did they do this? No.

At a subsequent meeting, when all were present, they set aside the veto by unanimous vote. The Auditor then, in accordance with law, refused to draw his warrant. This placed the matter in such a shape that the claimant had no recourse but to institute mandamus proceedings against the Auditor. Several months have elapsed and no such suit has been filed. Why? If the Commissioners had acted legally there would have been no contest in the matter, as others desired to submit bids for the work.

Two courses are offered for the recovery of the claim. One is to mandamus Auditor Shearer and the other is to defeat him at the coming election. It is not likely that a suit will be brought for several reasons, but if he can be defeated, it is not improbable that they can slide the claim through. The latter method seems to be the one most desired by those interested. The same can be said of another claim against the county. Very respectfully,
Reno, October 23, 1896. OBSERVER.

Gift Edge of Sacramento vs. Nevada Champions of Reno.

A great baseball game will be played at the Fair Grounds next Sunday, November 1, 1896, between the Gift Edge Club of Sacramento and Nevada Champions of Reno. Game will be called at 2 o'clock sharp. The Sacramento club is recognized as one of the best teams of California and the Nevada club has played sixteen games this season and never been defeated. No club has ever scored more than five runs on it.

Following are the names and positions of the respective teams:
Gift Edge. Position. Nevada.
McFadden. Pitcher. Wilson.
Hughes. 1st Base. Ferguson.
Barry. 2nd Base. Mozingo.
McDonald. 3rd Base. Voss.
Denny. 4th Base. Dodge.
Duffy. Shortstop. Radcliffe.
Walker. Left field. Christie.
O'Brien. Center field. Gilmore.
Doherty. Right field. O'Keefe.

A Successful Operation.

Dr. W. A. Phillips received a letter from his brother, Dr. P. P., saying that the latter's little son Alfred was obliged to part with the little finger and the one next to it on his right hand, the operation having been performed last Thursday. Two operations had been performed in the hope of saving the fingers, but the little fellow suffered such intense pain afterwards that it was decided to remove them altogether. After the fingers had been removed it was found that the bones were so diseased that it would have been impossible to save them. His parents, friends and Dr. Senn, his physician, are greatly encouraged now and believe that a permanent cure will be effected, notwithstanding the opinions of New York physicians, who thought the boy would have to lose his hand and perhaps his life.

The ordeal has been particularly hard on Dr. and Mrs. Phillips, as they have been in constant attendance on the little sufferer.

Decided Action Should be Taken.

The prevalence of diphtheria at Huffer's should receive the immediate and decided action of those in authority. It is said that the disease has entered three households and the opinion is that it has been carried by what has been considered the kindly ministrations of neighbors who have been in and out of the afflicted homes. Public funerals have been held and other dangerous risks incurred of spreading the disease. It has also been intimated that the conditions demand the employment of a physician who can give his whole attention to the afflicted families until the danger of spreading the disease is over. Five deaths have occurred in as many days and the matter is one that should receive immediate attention, for should the scourge come to Reno it would necessitate the discontinuance of all schools perhaps for weeks.

Another Straw.
To show the preference for Bryan, by people even in the course of ordinary trade is demonstrated by the following: Early in the campaign the Nevada Hardware Company laid in a stock of lamp globes, on some of which Bryan's picture appeared and others McKinley's. The stock of Bryan globes was soon cleaned out and more had to be ordered, while the indications point strongly to the McKinley globes being left as dead stock. As a matter of fact three dozen Bryan globes have been sold to one dozen of McKinley.

NEVADA'S FIRST CHOICE FOR CONGRESSMAN.

ACROSTIC.
Honored citizen of Nevada, hail,
On you depends the progress of our State;
None other canvas with us can prevail!
For in your master we know our fate
Grows brighter before the "Congressional Gate."

Now forced to open to our just demand
Endowed with voice of eloquence and love
Who dare gainsay the cause and the command
Long pending, in which you now take a leading hand.

All on true men of Nevada we call,
Nay, ask of each to weigh this question long:
Delay not, or perhaps the fatal fall
Shall come, caused by your voting in the wrong.

Never say fail, as sung in deathless song,
Ever say onward and light for the right.
Venture, for 'he's thrice armed whose cause is just."
And justice oft times arms the weak with might;

Demand your rights, and never cease your "silver fight."
Around the standard of Frank Newlands
Sing.

See that an X is placed after his name;
For, on election day, we'll crown him king
In triumph, and wreath his brow in silver fame,
Reverse the plain and spoil the "gold bug's" game.

Soul their doom and send John Sherman to hell!
This is the rally, boys, for home and kin;
Come to the polls, prepare your ballots well;
"Hold the fort" and toll Major McKinley's death knell.

Old party no more with us have away;
In the "silver party" we hold our trust;
Come what will on next November day
Each vote for the "silver party" or "bust."
For silver's our salvation, and we must
Overthrow the old, and "ring in the new."
Reward the honest, and preserve the good.
Call with your ballots the triad and the true
Our Frank Newlands, and all the "silver party" too.

No more we fear the "party whips" of those
Grown old in false pretenses and in lies,
Reward "old parties" all as deadly foes
Embrued with promises still so very wise.
Scathing our down before our very eyes,
So farwelled the old, the new is ours.
May triumph crown us on "election day,"
And glory wreath our path with bright flowers.

Now march to victory in spite of all the
"powers."

Virginia City, Nevada, Oct. 24, 1896.

Leg Broken.

As Eli Lechappelle of Verdi was preparing to leave here for home last evening at about 5 o'clock he met with an accident that will lay him up for several weeks. He was watering his horse at the trough in front of the French Hotel and the horse caught on a faucet pulling it entirely off the horse's head and frightening him, causing him to whirl about and he started to run away. Mr. Lechappelle seeing that he was powerless, jumped from the vehicle just in front of the telegraph office, breaking his left leg above the ankle, the broken end of the bone protruding some two inches through the flesh of his leg. The injured man was carried into the French Hotel and Drs. Hogan and Phillips were called who set the limb and made Mr. Lechappelle as comfortable as possible.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for Lung trouble. Trial Bottles Free at S. J. Hodgkinson's Drug Store.

Welshback Burners

Is an ingenious device by which oxygen and gas are burned together. The light produced is soft and peculiarly white and brilliant. They give four times the light obtained from an open gas burner at one-half the cost. They soon pay for themselves in the way they save. There are over 300 burners in use in nearly every business house in Reno. Price \$2.75 each, two or more, \$2.50 each. They are the wonder in light and saving.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For sale by S. J. Hodgkinson.

BREVITIES.

It is strange how some very independent men working for corporation will change their views politically upon the receipt of a billstodon from headquarters and become converts to a belief that a few hours before they could not say enough against.

The White Pine News says Hamilton has, perhaps, what few towns in Eastern Nevada can boast of, a genuine orange grove, one of the trees bearing thirty large oranges on it. The grove is owned and cultivated by Mrs. Alex Muir, and is certainly a great curiosity as well as decidedly attractive.

Mr. Summerfield on introducing Mr. William J. Bryan at the Opera House here said: "I wish with pleasure that I inform our distinguished visitor that goldbugs are as scarce in Nevada as snakes in Ireland." Now Mr. Summerfield's principal business seems to be to make it appear that goldbugs are very numerous in Nevada.

Free Pills.

Send your address to H. E. Buckler & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial box will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels, greatly invigorate the system. Regular size 25c. per box. Sold by S. J. Hodgkinson. Druggist.

Fatal Accident.

Dr. Hudson, a well-known cattleman and farmer of Smith Valley, was killed Sunday.

He was returning home from Mason Valley in a buggy when one of the wheels struck a rock, throwing him out and killing him instantly. A young girl who was with him was forced to leave him and drive several miles for assistance. He evidently struck on his head and broke his neck.—News.

Public Speaking.

The Silver-Democratic county candidates will address the public on the political issues at Clough & Crosby's Hall, Second street, Reno, on Thursday evening, October 23rd; also at Danahy's Hall Glendale on Saturday evening, October 31st.

The Robin and the Caterpillar.

The robin hops along in the furrow and picks up worms as the farmer plows, which it eats itself or carries to its nest as food for the young robins. The robin prefers smooth coated worms, such as the common earthworm, but if such food is scarce it does not disdain the fuzzy caterpillar. It is an oval day for the caterpillar when a robin strikes it. The robin picks it up and shakes it out of it—the fur, as the children call the caterpillar's fuzzy coating—leaving the caterpillar bare in patches and sometimes all over and shaken all out of shape. Then the robin eats it or carries it off to feed its young.—New York Sun.

A Questionable Compliment.

Charley Chumpleigh—Ah, Miss Nightingale, that "Winter Song" was charming. It carried me back to the days of my childhood.
Miss Nightingale—I am so glad you like it.

Charley Chumpleigh—Why, I could actually hear the cattle bellowing, the old windmill creaking and the discordant winds howling about the door.—Washington Times.

The cords of window blinds are good barometers. When they become tight, the reason is found in the fact that the air is moist, the cords have absorbed some of the moisture, and so are drawn tight. When they are slack, the air is dry and the tension of the cords is relaxed.
